**Subject:** Air Quality Contact

I spoke with Jeff Dean at Air Quality (536-4089) today about the Nick Siaperas citizen complaint. I told him that we had done an investigation and an inspection at Wellington and did not find a violation on that day. I also explained to him that we would be sending a letter to Mr. Siaperas about our findings and would essentially refer Mr. Siaperas to Air Quality with this dust problem per our MOU with DEQ effective September 1, 1999. (I also told him that we would copy him on our letter with the attached inspection report.)

He said that he was preparing a letter to NEICO ordering them to prepare a fugitive dust suppression plan (which is an ongoing activity)...he will copy us on his letter to NEICO... He also said that he believes that Mr. Siaperas' concern is valid. FYI...
